Palmer Ridge High School, 19255 Frontage Road, Monument, 80132

Parking: Use the south lot and the “Event Entrance” doors
Virtual Meeting Option (starting at 6 p.m.): You must register in advance at: https://www.townofmonument.org/592/Jackson-Creek-Parkway-Widening-Project

Highway 105A Construction Project, El Paso County - Construction dates: Summer 2023 – 2025

This project extends the 4-lane section of Highway 105 from just east of the intersection of Jackson Creek Parkway to Lake Woodmoor Drive. It includes widening and reconstruction of Highway 105, new curbs and gutters, two retaining walls, intersection improvements, new roundabout at Klootwood Drive/Village Point intersection, traffic signal replaced at Klootwood Drive, a new underground drainage system and water quality pond.

- Monument Academy will construct new queuing lanes on the school property site north of Highway 105.
- The Monument Junction developer will construct improvements at the Highway 105/CO-105/Jackson Creek Parkway (JCP) intersection including a second westbound left turn lane on Highway 105 to southbound Jackson Creek Parkway. See project update below.

Jackson Creek Parkway Widening Project, Town of Monument – This project is currently under design. Estimated construction dates: 3rd Quarter 2024 - 2026

This project will expand Jackson Creek Parkway from one lane in each direction to two lanes in each direction (from Higby Road north to Highway 105), extending the four-lane configuration. Also included are drainage improvements, median landscaping, pedestrian and bike pathways, and "Gateway" treatments.

Monument Junction Interim Improvements — Highway 105/CO-105/Jackson Creek Parkway (JCP)

- This “Interim” project will see approximately 2,600 linear feet of JCP street improvements including widening for several new turn lanes, drive access to development areas, signage, and striping.
- The project duration is approximately 80 workdays and is scheduled for completion in August 2023.
- Wildcat Construction and its Subcontractors got off to a great start this past Monday morning in setting up traffic control for public and crew safety before proceeding on with its actual JCP widening efforts.
- After mobilizing its earthmoving equipment into the JCP Staging area Tuesday morning, Wildcat began Clearing & Grubbing operations along the JCP northbound roadway.
- To expedite the widening project, over the next three to four weeks, Wildcat will be performing Clearing & Grubbing, Cut/Fill Operations, and Subgrade Scarifying/Recompaction.
